

# Collaboration tools

## For teamwide communication

- Slack

## For product work collaboration

- JIRA is Integrated with Receptive & kicks all features into the development team
- Trello as you start off to assign tasks
- ClickUp to assign tasks as your company starts to grow

## For content collaboration

- Google docs for documents/spreadsheets/presentations
- Airtable for more complex spreadsheets or special integration needs (i.e. zapier, or integrate sheet or form on webpage)
